PROFESSIONAL SUMMARY

Results-oriented full stack web developer with expertise in HTML, CSS, JavaScript, React, Node.js, Express, and MongoDB. Skilled in collaborating with cross-functional teams to translate project requirements into scalable web applications. Proficient in designing efficient server-side APIs and implementing optimized database models. Adept at conducting thorough testing and debugging to ensure application reliability. Up-to-date with the latest web development trends and best practices. Strong problem-solving abilities and excellent communication skills to excel in a collaborative environment.

PROJECTS

JD.com (Clone) | 🌐 | 🐙

JavaScript | React | Redux | Git | Node.js | Express.js | MongoDB | RESTful APIs | HTML5 | CSS3 | Responsive Web Design

- Built a full-stack e-commerce web application using the MERN stack (MongoDB, Express.js, React.js, Node.js)
- Implemented responsive web design and created a seamless shopping experience for users
- Utilized Redux for state management and integrated Google OAuth for user authentication

GymWolf | 🌐 | 🐙

JavaScript | React.js | Git | HTML5 | CSS3 | Responsive Web Design | Chakra UI

- Developed GymWolf, a workout tracking tool using React.js
- Implemented registration, login, and search functionality
- Utilized Chakra UI for building the user interface

WORK EXPERIENCE

TTEC

Customer Support Executive | January 2022-present

- Investigated and resolved complex issues through collaboration with technical teams, ensuring swift resolution.
- Demonstrated in-depth knowledge of company products, contributing to a reduction in the average issue resolution time.
- Actively participated in ongoing training programs and contributed to the onboarding process of new team members.
